

Liu J., Tang J., Chen S.-C., Ma W., Zheng Z., Dong T. (2019). Do tree cavity density and characteristics vary across topographical habitats in the tropics? A case study from Xishuangbanna, southwest China. *Silva Fennica* vol. 53 no. 1 article id 10019. <https://doi.org/10.14214/sf.10019>

Supplementary file S6

Table D. Crosstabulation (χ^2 test) of cavity types across DBH classes for the twenty dominant species in a seasonal rainforest in tropical China.

DBH classes (cm)	χ^2	df	<i>p</i>
All	244.7	114	<0.001
5-20	123.0	114	<0.001
20-40	176.5	85	<0.001
40-60	63.0	60	0.371
≥ 60	38.7	36	0.349
